DETAILED ACTION

1. The final rejection is hereby withdrawn in view of the new rejection set forth below.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 11 is rejected under 35 U.S.C. 102(b) as being anticipated by Bose et al. (4952441).

Bose et al. discloses a backing sheet for insulation (figure 2), the backing sheet comprising a front side having an adherent material thereon (figure 2 number 34), the front side with the adherent material having a fiberglass sheet receiving portion (figure 2 number 30), a back side, a stapling tab extending along an edge of the backing sheet (figure 2 number 38), the stapling tab having a first portion of the back side positioned against a second portion of the back side (figure 2 number 38), and a tacky substance bonding the first portion of the back side to the second portion of the back side (figure 2 number 34).

Allowable Subject Matter

3. Claims 12-14 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 19-20,32-33 allowed.

Response to Arguments

5. Applicant's arguments with respect to claims 11-14,19-20,32-33 have been considered but are moot in view of the new ground(s) of rejection.
